City of Porvoo

The Porvoo of our Dreams 2030

A FAVOURITE
PLACE TO LIVE

BEST FOR ANY DAY
OF THE WEEK

CITY LIFE

A PIONEER IN
CLIMATE
PROTECTION

A pioneer in climate protection

Porvoo is known for carbon neutral living, sustainable solutions for community planning, energy, public transport and commuting, and the Kilpilahti bioeconomy and circular economy cluster.

Schools, day care centres, households and companies are leading a sustainable everyday life and actively contributing to our goals for environment and climate.

In Porvoo, climate work gives increased well-being, a healthy urban environment and attractive services for residents and visitors.

We seek new ideas from international partners and networks. We actively share our own know-how.

- Carbon neutrality
- Sustainable living
- Circular economy

First step towards international networking

- City of Porvoo is not yet a member in international networks or partnerships.
 - There are a large number of national and international networks and partnerships available all together.
 - How to find the right connections in order to take you forward with your goals?
 - What are the demands in these networks? How much work do you need to put in and what do you get out?
- Disclosing to CDP is a first step towards finding the right ways to connect also internationally.

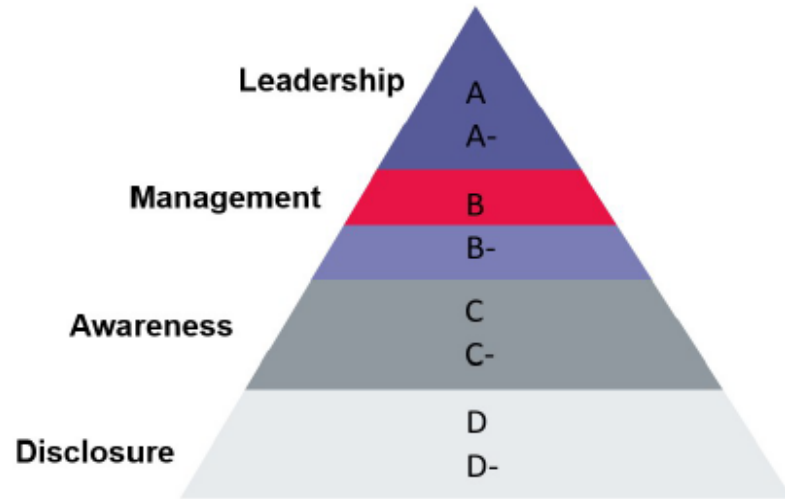

How did we get started?

- The decision about disclosing to CDP was made in the City's climate group.
- One person responsible of filling the questionnaire.
- At the first time the questionnaire required quite a lot of effort.
 - Start working with the questionnaire early!
 - Contact other municipalities. Co-operate!
 - Do you need to get a grade at the first time?
- The second time is already much easier!
- CDP offers support and webinars for the municipalities. Take advantage of this support!
- ❖ Bonus: some of the international networks use the same platform. Practising for the future?
